The Story of Draught

Below is a brief description of what each style of beer is. NOTE: Each location might not have all selections

LAGER – The yeast used during the fermentation process is the difference. Lagers have bottom fermenting yeasts, which in turn don't typically give the beer any fruity flavors or strong aromas. It allows for a cleaner, lighter and crisper taste.

ALE – Ales on the other hand use top fermenting yeasts, which allow for fuller bodies, stronger aromas and sweeter flavours. With some ales, there can be a bittering agent added to counteract the sweetness. Typically, they can be found in darker colours.

IPA – An IPA or India Pale Ale, is a subcategory of an Ale. An IPA is usually quite bitter and has a very strong flavour. Accompanied by the flavour is typically a higher alcohol percentage. Typically, an IPA is a lighter chocolate colour and can sometimes be cloudy.

WHEAT ALE – This type of Ale is more of a seasonal beer, found during the summer months. Wheat Ales are typically filled with citrus flavour and often accompanied by an orange or a lemon. They are commonly very cloudy beers but should have a crispy refreshing flavour.

PILSNER – Pilsners are a type of lager that originated in the Czech Republic. They tend to be a light golden colour. Some have a strong hop flavour, spicy floral notes with a crisp finish that have made them arguably the most popular beer in the world.

Specialty

PINTS

20-oz. **8.45**

- **STRONGBERGS** – Strongbow Cider topped with your choice of Lime, Peach or Raspberry Slush.
- **BLACK VELVET** – Guinness & Strongbow Cider in equal parts with the Guinness floated on top.

WHO WAS SAINT PATRICK?

For starters, Patrick was kidnapped by Irish pirates when he was 16 and taken to Ireland, where he was sold into slavery. After about seven years, he managed to escape, which “no one had ever done before.”

Following a short stint back home, Patrick decided to return to Ireland as a missionary. He later became a priest and a bishop and spent the rest of his life in Ireland, before passing away on March 17, 461.

He was largely forgotten for a couple centuries until the 600s. That’s when the church in northern Ireland began to celebrate him as a saint and his following spread from there.

Little is known about him, though, apart from two very short but revealing letters in Latin that he wrote about his life and work in the late 400s AD.

It comes out in both of his letters how concerned he was about enslaved women in Ireland...and talks about his insecurities, his struggles, about fighting against depression.

The letters reveal a man who worked incredibly hard, who was full of self-doubt, and yet who kept going year after year.

St. Patrick’s Day started as a small, religious holiday in Ireland. And believe it or not, for the first nearly six decades, bars had to stay closed because the holiday falls during Lent. The law was lifted in 1961; and now, 13 million pints of Guinness are sold around the world on March 17th.

Today’s St. Patrick’s Day traditions evolved across the pond when Irish immigrants came to Canada and the United States following the potato famine of the 1840s.

They remembered the old country and wanted to have a day that they could be proud of. Because the Irish were treated very badly in North America by a lot of people...And so they began parades.

It’s spread way beyond being a religious holiday or even being an Irish holiday and it’s just now, I think, the chance to celebrate the end of a long, cold winter.

And to drink a lot of beer.
